This diagram illustrates step 52 of a LEGO Technic assembly. The main structure is built using a variety of colored bricks: yellow, blue, grey, and white. A black cable is connected to a motor unit on the right. The mechanism features several gears, including a large black gear at the top and a smaller black gear at the bottom right. A red line highlights a specific part of the assembly, likely indicating the placement of the yellow Technic beam shown in the inset. The inset shows a yellow 1x5 Technic beam with two holes, labeled '2x', indicating that two of these beams are required for this step. The background is white, and the overall style is that of a technical manual.
